Cost management services from Colwyn Bay

Holyhead Town Centre Regeneration, Harbour Building.

Franklin + Andrews is one of the world's leading construction economists. With our core skill in quantity surveying we operate across all economic sectors, providing tailored business solutions at inception and throughout the whole life cycle of capital projects. We take great pride in delivering added value to our clients, by applying best practice and innovation.

Franklin + Andrews' commitment to the North Wales region, and our focus on client's real needs, enables us to bring their plans and projects to fruition, helping client's achieve their business objectives. By working in partnership with our customers and staying closely attuned to their needs and aspirations, we help transform their vision into reality. We can provide you with all the services you need, backed by our Group wide resources.

We specialise in the development and administration of construction contracts and cost management services to the commercial property, government, nuclear, utilities and transportation sectors. As one of the world's leading publishers of construction cost data we are able to benchmark costs and provide assurance that value for money is being achieved. Our cost management services are supported by structural, civil and geotechnical services from the Mott MacDonald Group.

From Colwyn Bay, our Group has formed well established roots in Wales and has contributed to such landmark projects as the Britannia Bridge over the Menai Straits and Dinorwig Power Station, Europe's largest pumped storage scheme. Our projects are as diverse as they are impressive, ranging from project management for the National Library of Wales extension to providing whole life costing and carbon footprinting for Conwy County Borough Council.

Franklin + Andrews, as a member of the Mott MacDonald Group, has been involved in work for First Hydro, Magnox Electric at Trawsfynydd and Wylfa, Conwy County Borough Council, Isle of Anglesey County Council and Glyndwr University and has been appointed as a consultant for the North Wales Procurement Partnership.
